

Scientific Discoveries Research RFP
Addendum 1
(Posted 01/21/25)
Questions & Answers

Below are questions (generally verbatim unless otherwise noted) and answers regarding the RFP. The questions below were received from the date the application opened January 6, 2025.

Please check wacarefund.org for future updates.

1. Question [Edited slightly for clarity]: Can a PI have two awards from the Andy Hill CARE Fund? Can a PI apply for the 2025 Scientific Discoveries Research (SDR) [RFP](#) if they have a pending application for the Implementation and Outcomes Research (IOR) RFP in 2024?

Answer: Yes, a PI may have two grant awards from the CARE Fund. A PI may only submit one application per grant opportunity. Each grant must have individually dedicated sources of non-state match funding. If an applicant has applied for an IOR award, they may also apply for the SDR RFP, but the SDR application should be a different proposal and be responsive to this RFP
